Information About the Sanctuary Organ

As Cited in the [Organ Historical Society](#)

- Bennett Organ Co. (1926, Opus 917).
- An organ's *state* is an aspect of its existence as an historical artifact, while its *condition* is an aspect of its existence as a useful musical instrument.
 - Current state: rebuilt or substantially revised.
 - Last update 2005-12-30.
- 2 manuals.
- EP chests.
- The organ is in chambers at the center front of the room. There are no visible pipes.
- Console in fixed position, right. Balanced swell shoes/pedals. Adjustable combination pistons. Concave radiating pedalboard. Crescendo Pedal.
- Additional notes.
 - Identified through on-line information from James R. Stettner. -- The organ was rebuilt with additions in 1957 by Balcom and Vaughan of Seattle, and again in 1992 by Bond Pipe Organs, Inc. of Portland, Oregon. (Database Manager. 2005-12-30)
